DEMONSTRATED CORE CAPABILITIES & VERIFIED MODULES

✓ VERIFIED

1. Real-Time Disaster & Weather Alerts
Live meteorological advisories (AQI, Rain, Floods), MSEDCL power grid outage warnings, and administrative disaster broadcast feeds.

✓ VERIFIED

2. One-Touch Emergency SOS & GPS Dispatch
Instant distress transmission with exact latitude/longitude GPS coordinates via Twilio SMS and Brevo transactional email with Google Maps navigation.

✓ VERIFIED

3. Public Grievance Redressal System
Citizen reporting for road potholes, waste dumping, water leaks, and streetlights with photo uploads and real-time administrative status tracking.

✓ VERIFIED

4. Automated Utility Billing & Tax Invoice Engine
Instant MSEDCL light & water bill lookup, multi-month ledger calculation, dynamic late surcharge / advance credit / solar subsidy, and live email tax receipts.

🏛 OFFICIAL VERIFICATION & PROJECT APPROVAL ENDORSEMENT

"This is to formally certify and acknowledge that **Sanskar Dhat** has presented a comprehensive live demonstration of the **MahaResilience** platform before the undersigned authority. We have witnessed the functional modules in operation, inspected the real-time emergency dispatch and automated billing engine, and hereby **VERIFY AND APPROVE** the project as a fully operational, technically robust, and highly impactful civic-technology solution. The project demonstrates exceptional practical value and is recommended for municipal and administrative evaluation."
